

## **Technology Assessment: Towards a consumer oriented TA Concept**

 [Download and print view](#)

### **Brief description**

The project funded by the Europe Center of the Steinbeis Foundation in Stuttgart (Steinbeis-Europa-Zentrum) has the objective to design a technology assessment concept that pays particular attention to the consumer perspective. The analysis includes the development of a set of potential topics for further research, some suggestions for institutional solutions for dealing with consumer-oriented TA and practical advice for designing research protocols in this area.

### **Duration**

01.11.2004 - 31.03.2005

### **Project leader**

Prof. Dr. Ortwin Renn
